PROFESSIONAL EXPERIENCE

Software Engineer | Cogneo Technologies

August 2024 – Present

- Engineered high-performance, asynchronous APIs using **FastAPI** and **Python**, reducing response latency by 40% and supporting scalable backend architecture.
- Integrated **OAuth 2.0** with a robust **RBAC system** featuring dynamic roles and static permissions, strengthening user authentication and fine-grained access control.
- Designed and maintained end-to-end **data pipelines** using **PySpark** and **Delta Lake**, implementing **SCD Type 2** logic with **watermark** and **lineage tables** for incremental loads and full data traceability.
- Developed and enforced **47+ custom Data Quality (DQ) checks** including schema validation, null handling, pattern matching, and referential integrity to ensure trusted, clean datasets.
- Delivered production-grade **unit and integration tests** using **pytest**, ensuring API and pipeline stability with 90% code coverage and seamless CI/CD integration.

Front-end Developer Intern | Nullclass Edtech PVT LMT

January 2024 - July 2024

- Designed and developed **2 interactive web applications** using **React.js**, **JavaScript**, **HTML**, and **CSS**, ensuring a seamless user experience across all devices.
- Streamlined the communication processes between client-side applications and server endpoints through well-structured **RESTful APIs**, resulting in reduced response times by an average of 200 milliseconds per request with consistent load handling.
- Enhanced application performance by **30%**, reducing load times and improving overall responsiveness through efficient coding practices.
- Collaborated with cross-functional teams to deliver projects **10% ahead of deadlines**, ensuring client satisfaction and project success.

EDUCATION

Indian Institute of Information Technology, Guwahati

December 2020 – June 2024

B.Tech - Computer Science and Engineering - Cpi - 7

Guwahati, Assam

PROJECT

Academic Gateway [🔗](#) | [IDE - VS Code](#)

- Developed a **web-based financial management platform** for educational institutions, streamlining payments for library dues, college fees, mess charges, and hostel rent.
- Designed a **user-friendly dashboard** with **secure authentication** and **real-time library fine tracking**, improving accessibility and security.
- Integrated seamlessly with existing **fee management systems**, enabling hassle-free transactions and reducing manual workload by **40%**.

GharDekho [🔗](#) | [IDE - VS Code](#)

- Engineered a responsive **property rental platform** using **React**, **Firebase**, and **Node.js**, enabling real-time discovery and listing of rental properties with optimized UX for both tenants and landlords.
- Integrated **Google OAuth 2.0 authentication** and **Firebase-powered real-time chat**, ensuring secure user sessions and instant communication to streamline the rental process.

IPL Winning Prediction And Statistical Analysis [🔗](#) | [Python, IDE - Jupiter Notebook](#)

- Conducted extensive **EDA on 13 IPL seasons (2008–2020)** to uncover winning patterns, player performance trends, and match dynamics using **Pandas**, **Matplotlib**, and **Seaborn**.
- Developed and optimized a **multi-classifier predictive model** (SVM, KNN, Decision Tree, Random Forest, XGBoost), enhancing **prediction accuracy** through advanced **feature engineering** and model evaluation.

SKILLS

Languages: C/C++, Python, SQL.

Technologies/Frameworks: HTML, CSS, JavaScript, Reactjs, Firebase, MongoDB, FastAPI, PostgreSQL, Pydantic, MySQL, Git, AWS

Developer Tools: VS Code, PyCharm, Canva, Jupiter Notebook, Google Colab

CODING PLATFORMS AND CERTIFICATIONS

- Solved **550+** Problems on **Leetcode**. [🔗](#)
- Solved **550+** Problems across **GeeksforGeeks**. [🔗](#)
- Solved **200+** Problems across **HackerRank**. [🔗](#)
- Python complete course for beginners **Udemy**. [🔗](#)
- Mastering in C++ **Udemy**. [🔗](#)
